

EASYWEAR ARMBAND

Devoca's unique, watchband-style armband frees both hands for actual work. You no longer need to carry smartphone in your hand or pocket, instead it is worn in your arm safely and securely.

It suits to all kinds of smartphones, thanks to its flexible fixing system. You can adjust phone rotation freely due to rotation feature of 360 degrees.

COMFORTABLE FABRIC

Armband is comfortable to wear throughout the working day. It does not itch or sweat and holds mobile phone rigidly in your arm. Breathable and anti-bacterial fabric is flexible and gives good wearing sensation.

Robust armband is machine washable and hence it is durable for a long time.

FITS TO ALL PURPOSE AND SIZE

Armband is available in 8 different sizes, so it fits to all arms regardless of clothing.

It is designed for robust industrial environment, both outdoors and indoors with temperature range of -30C .. 50C degrees.

EASY TO USE

Delivery of armband consists of two units, fabric part and plastic phone base with strong adhesive tape.

Smartphone's type-specific back cover (TPU) is needed to make smartphone easily removable.

Back cover is attached to phone base using adhesive tape. Smartphone is slipped into back cover where it will stay firmly.

Wearing is easy and fast, you simply pull the flexible armband around your arm and then you tighten it with two fastening velcro straps.
